NAICS CODES

GENERAL INFORMATION

The United States has a new industry classification system. On April 9, 1997, the Office of Management and Budget (OMB) announced its decision to adopt the **North American Industry Classification System** (NAICS pronounced nākes) as the industry classification used by the statistical agencies of the United States. NAICS codes replace the 1987 Standard Industrial Classification (SIC) codes. The nomenclature of the groupings within the system is different in NAICS. NAICS refers to the highest level of aggregation in the system as a sector; the SIC referred to this grouping as a division. Other changes have been made to the nomenclature as shown in the following table. For additional information on NAICS, log on to the US Census Bureau web site at www.census.gov/epcd/www/naics.html.
