# 2022 Annual Report Covered Device Recycling Act

## Overview

The Covered Device Recycling Act (CDRA or Act), the act of November 23, 2010, P.L. 1083, No. 108, 35 P.S. §§ 6031.101 et seq., established requirements for manufacturers, retailers, and other entities to facilitate the recycling of electronic devices covered under the CDRA. Covered devices include: **desktop computers, laptop computers, computer monitors, tablets, computer peripherals, televisions, and e--readers that contain a browser and have Internet connectivity.**

The CDRA established a manufacturer responsibility program with the objective of offering a readily available recycling opportunity to Pennsylvania residents. The CDRA requires manufacturers to collect and recycle an amount equal to or greater than their two-year- prior sales in pounds of covered devices, and it bans the disposal of covered devices in landfills.

## Reporting Requirements

Section 502 of the CDRA, 35 P.S. § 6031.502, requires the Department of Environmental Protection (DEP) to provide an annual report to the General Assembly that includes:

- The total weight of covered devices collected in the commonwealth during the previous calendar year.
- A complete listing of all manufacturers' collection, transportation, and recycling programs and collection sites operating in the commonwealth during the prior calendar year, the parties that operated them, and the amount of material by weight collected at each site.
- An evaluation of the effectiveness of the education and outreach program.
- An evaluation of the existing collection and processing infrastructure.
- Recommendations for expanding the program to include additional electronic devices.

## 2022 Report Information

### **35 P.S. § 6031.502.**

The following information is provided to meet the reporting requirements of Section 502.

***The total weight of covered devices collected in the commonwealth during the previous calendar year.***

In 2022, there were **77.2** million pounds of covered devices recycled by 65 manufacturers. By comparison, in 2021, 62 million pounds were recycled by 63 manufacturers.

Craig Electronics, Inc./Newtech  
NEC Display Solutions of America  
Seura Inc.

In 2022, 12,272 obligated pounds remained uncollected. The following companies failed to recycle their obligated share in 2021:

AG Neovo Technology Corp.  
AWOW Tech  
Evervue USA Inc.  
Gigabyte Technology  
Shaghal Ltd.

At the conclusion of program year 2022, the following companies were included on our sales prohibition list as per Section 302 of the CDRA. For up--to--date information regarding the compliance status of these companies, please contact the Division of Waste Minimization and Planning at 717-787-7382 or via email at: [ra-eprcyclepa@pa.gov](mailto:ra-eprcyclepa@pa.gov).

***A complete listing of all manufacturers' collection, transportation, and recycling programs and collection sites operating in the commonwealth during the prior calendar year, the parties that operated them, and the amount of material by weight collected at each site.***

Complete lists of collection, transportation, and recycling programs and sites operating in the commonwealth are provided in Appendices A through C. Because collection sites are not required by law or regulation to operate and maintain scales, the amount of material collected at each site is unavailable.

***An evaluation of the effectiveness of the education and outreach programs.***

In general, local governments have done an excellent job of publicizing electronics collection programs. DEP recommends that manufacturers and retailers continue to expand their education programs to emphasize where covered devices can be recycled and ensure collection sites are reasonably available to residents throughout the year. Manufacturers should create and maintain an Internet website address or a toll-free telephone number for residents to learn where they can recycle material, or why there is no viable option available.

***An evaluation of the existing collection and processing infrastructure.***

Issues continue with the collection and processing infrastructure necessary to implement the CDRA. DEP continues to work with the operators and managers of recycling collection programs to evaluate the existing collection and processing infrastructure. The same concerns DEP has heard previously are more prevalent due to the absence of reliable funding, low market values for materials, and the uncertainty of having the collected material covered by a manufacturer's plan.

The CDRA has not stimulated a dependable statewide infrastructure to ensure local governments, collectors, and recyclers are able to operate and provide recycling services on a continuing basis. Collection infrastructure continues to be inadequate because recyclers are hesitant to contract with counties as some collected electronics are not covered by manufacturers' goals.

Televisions and computer monitors that contain cathode ray tubes (CRT) continue to be problematic for recycling due to the leaded glass in the CRTs, absence of low-cost- recycling technology, and limited number of CRT processors. The high cost of transporting CRTs to processors and the actual processing cost is greater than the value of the material recovered, which creates a negative value commodity. In response, some entities have reduced, limited, or eliminated CRTs from collection programs as illustrated in Appendix D. Nevertheless, the demand for opportunities to recycle old televisions continues to be high. Reports indicate that, by weight, approximately two-thirds of the materials recycled from households are CRT-containing electronics, such as televisions.

Efforts to explore new technologies for processing CRT glass are ongoing; however, none of these efforts have yet to be successfully deployed. In late 2018, a major CRT glass end market stopped taking shipments, citing regulatory challenges.

The CDRA requires manufacturer programs to provide recycling access to 85 percent of the population; however, the landfill ban prohibiting the landfilling of covered devices applies to 100 percent of the population. These provisions in the CDRA continue to result in a confounding situation for residents that may have limited or no opportunities for recycling but are faced with a landfill ban on the material they wish to discard. A 2022 Pennsylvania Recycling Markets Center analysis reported that collection infrastructure diminished to the point of eight collection sites in the entire commonwealth that take covered devices without restriction. According to this analysis, provided as Appendix D, only 22 percent of the population has unrestricted access to recycling opportunities under CDRA. Restrictions on recycling sites invariably involve television recycling. Consequently, the ongoing inadequacy of viable television recycling options has exacerbated the proliferation of illegal television dumping as reported by county recycling coordinators.

***Recommendations for expanding the program to include additional electronic devices.***

Currently, DEP has no recommendations for expanding the program to include additional electronic devices.

## APPENDIX A

### Individual Manufacturers and Recyclers

<b>Manufacturers</b>	<b>Recycler(s) Utilized</b>
HP, Inc.	JVS Environmental, LLP – PA; TBS Industries - PA

## APPENDIX D

### 2022 Pennsylvania Electronic Collection Coverage Maps

#### 2022 PA Covered Device Recycling Act (CDRA) Coverage Map Collection Sites From Recycling Plans For Electronics Manufacturers All Verified Sites

##### Legend

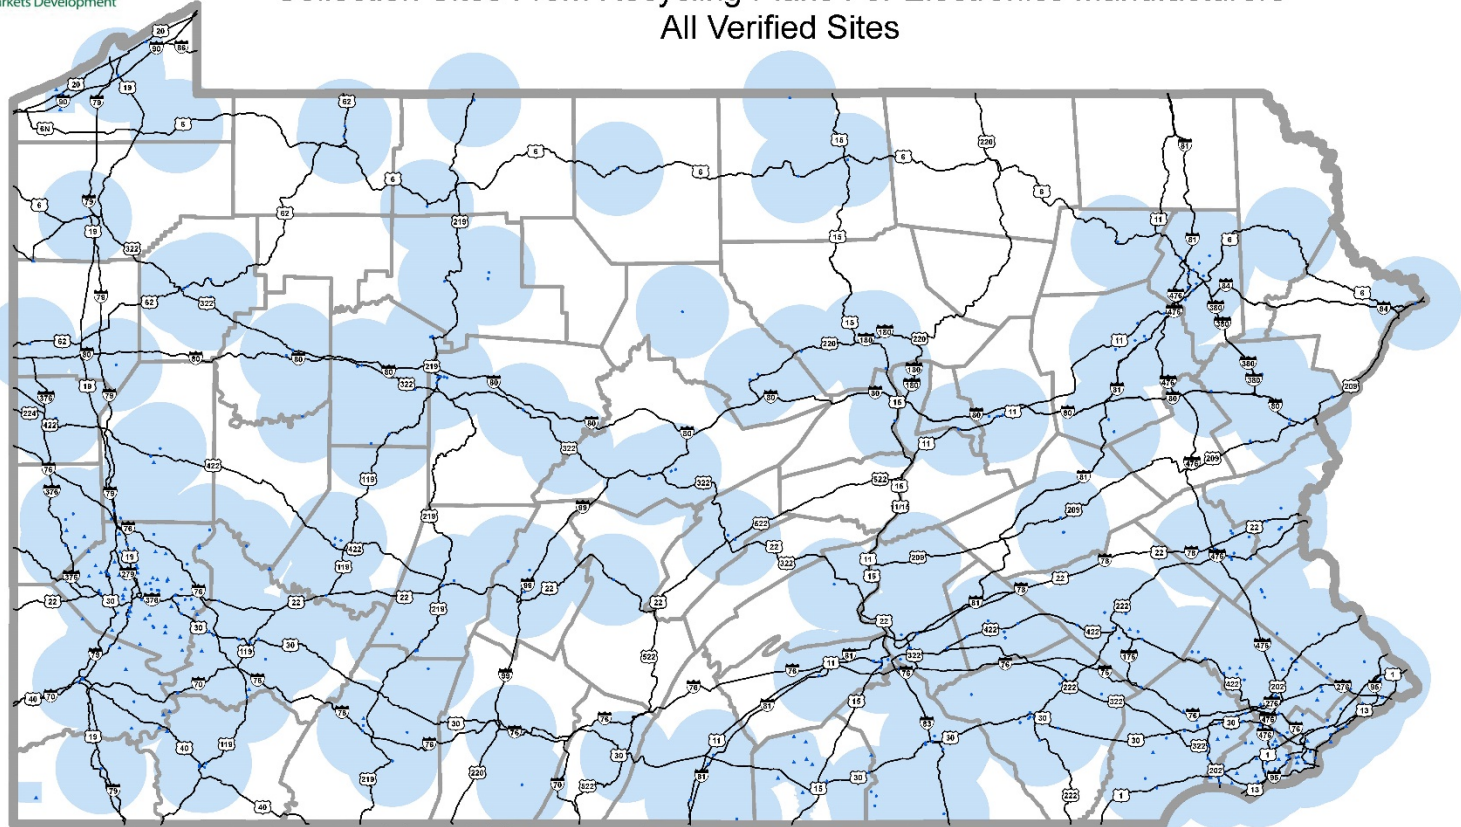

- ▲ Municipal Locations
- CDRA Locations
- Interstates & US Highways
- Municipalities
- 10-Mile Radius Coverage

##### Coverage Data

27,037.8 Land SQ Miles (60.4%)  
12,014,077 People (92.4%)

##### Notes:

1. A Covered Device under the CDRA includes: desktop computers, laptop computers, computer monitors, computer peripherals, televisions, tablets and e-readers.
2. A restriction or condition on the collection of Covered Devices means that a collection site does not accept or limits the number of one or more types of Covered Devices, or does not impose a fee or cost to a consumer for the collection, transportation or recycling of a covered device, unless a financial incentive (e.g. coupon, rebate or other) of equal or greater value is provided to the consumer.

2,282.3 Land SQ Miles (5.1%)  
2,746,580 People (21.1%)

**Coverage Data: OEM Sites, Yes Restrictions**  
24,755.5 Land SQ Miles (55.3%)  
9,267,497 People (71.3%)

### Collection Type Data

- OEM Plan Sites
- Retail Sites - 286
- Attended Drop-off Sites - 37
- Collection Events - 38
- Curbside Collection Programs - 82
- Residents Only Sites - 142

### Notes:

1. A Covered Device includes: desktop computers, laptop computers, computer monitors, computer peripherals, televisions, tablets and e-readers.
2. A restriction or condition on the collection of Covered Devices means that a collection site does not limit participation to a select group of people (i.e. residents or customers only), does not accept or limits the number of one or more types of Covered Devices, or does not impose a fee or cost to a consumer for the collection, transportation or recycling of a covered device, unless a financial incentive (e.g. coupon, rebate or other) of equal or greater value is provided to the consumer.
3. 5 of the 31 DEP-permitted e-waste processors participate in OEM recycling plans as attended drop-off sites.
