

MONITORING WAIVER APPLICATION MODULE 2 – IOC WAIVER REQUEST

A. General:

Entry Point (EP) ID #: _____
 (Please complete a separate form for each EP)

IOC waivers are issued on a contaminant-by-contaminant basis for groundwater and surface water sources. A waiver is being requested for the following IOCs: (Please check all that apply)

<input type="checkbox"/> Antimony	<input type="checkbox"/> Beryllium	<input type="checkbox"/> Cyanide	<input type="checkbox"/> Nickel
<input type="checkbox"/> Arsenic	<input type="checkbox"/> Cadmium	<input type="checkbox"/> Fluoride	<input type="checkbox"/> Selenium
<input type="checkbox"/> Barium	<input type="checkbox"/> Chromium	<input type="checkbox"/> Mercury	<input type="checkbox"/> Thallium

B. Historical Monitoring Results:

Do the three (3) most recent consecutive rounds of monitoring conducted indicate that contaminant levels are reliably and consistently below (< 80%) the MCL?

☐ YES ☐ NO

Please attach laboratory results.

C. Please indicate which of the following modules are included in this submission:

- Are the sources vulnerable to any industrial sources of cyanide? ☐ YES ☐ NO ☐ N/A
- Are the sources vulnerable to any land uses that disturb the bedrock or have the potential to affect IOC concentrations, such as mining or drilling operations, oil and gas wells, NPDES discharges, landfills, environmental clean-up sites, etc. ☐ Yes ☐ No
- Please complete Module 7 (Site Map and Land Use Inventory) for each source and identify all land uses, including industrial sources of cyanide and land uses that disturb the bedrock or have the potential to affect IOC concentrations.
- Please describe the steps taken to determine land uses that potentially affect IOC concentrations:

D. Certification:

The information contained herein is true and correct to the best of my knowledge, information and belief. The information given is subject to the penalty provisions of the Crimes Code regarding unsworn falsification to authorities (49 P.S. §4904).
